

Notice of Acceptance of Final EIS

The action involves the design and installation of a flood barrier system and related improvements in drainage and open space along a project corridor that includes streets and open spaces between the intersection of North Moore Street/Greenwich Street on the north and 1st Place in Battery Park City on the south and includes a crossing of State Route 9A/West Street. The majority of the project area is aligned along the waterfront open spaces of Battery Park City. Also included in the proposed project are drainage improvements, including a pump station. The project location includes streets and open spaces between the intersection of North Moore Street/Greenwich Street on the north and 1st Place in Battery Park City on the south and includes a crossing of State Route 9A/West Street along the Battery Park City waterfront in Manhattan, New York.
